

Ideation Phase

Define the Problem Statements

Date	25 June 2026
Team ID	
Project Name	An employee requests installation of licensed software through the Service Catalog
Maximum Marks	2 Marks

Customer Problem Statement Template:

Employees in many organizations experience delays and a lack of transparency when requesting licensed software through manual processes such as emails or phone calls. These methods make it difficult to track request status, manage approvals, and assign installation tasks efficiently.

The organization requires an automated solution that allows employees to submit software installation requests through the **ServiceNow Service Catalog**, enabling streamlined approvals, automated task creation, real-time tracking, and faster software delivery while improving the overall user experience.

Ideation Phase – Define the Problem Statement		
Customer Problem Statement Template		
 I am	<i>Describe customer with 3-4 key characteristics - who are they?</i>	Describe the customer and their attributes here
 I'm trying to	<i>List their outcome or "job" the care about - what are they trying to achieve?</i>	List the thing they are trying to achieve here
 but	<i>Describe what problems or barriers stand in the way - what holds them back?</i>	Describe the problems or barriers that get in the way here
 because	<i>Enter the "root cause" of why the problem or barrier exists - what needs to be solved?</i>	Describe the reason the problems or barriers exist
 which makes me feel	<i>Describe the emotions from the customer's point of view - how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

Example:

I am  an employee who needs software installed for my work.	I'm trying to  request installation of licensed software through an official process.	but  the process is slow and involves multiple emails and manual approvals.	because  there is no centralized system and workflow to handle requests automatically.	which makes me feel  frustrated and uncertain about when my software will be installed.

Problem Statements (PS) – For Our Project

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 	an employee	request installation of licensed software through the Service Catalog	the approval and installation process takes too long	the request is handled manually and requires multiple approvals	frustrated due to delays and lack of visibility
PS-2 	an IT Software Support Engineer	manage and fulfill software installation requests efficiently	requests are difficult to track and assign	there is no centralized automated workflow	overloaded and less productive
