

Project Design Phase-II Data Flow Diagram & User Stories

Date	25 June 2026
Team ID	
Project Name	An employee requests installation of licensed software through the Service Catalog
Maximum Marks	4 Marks

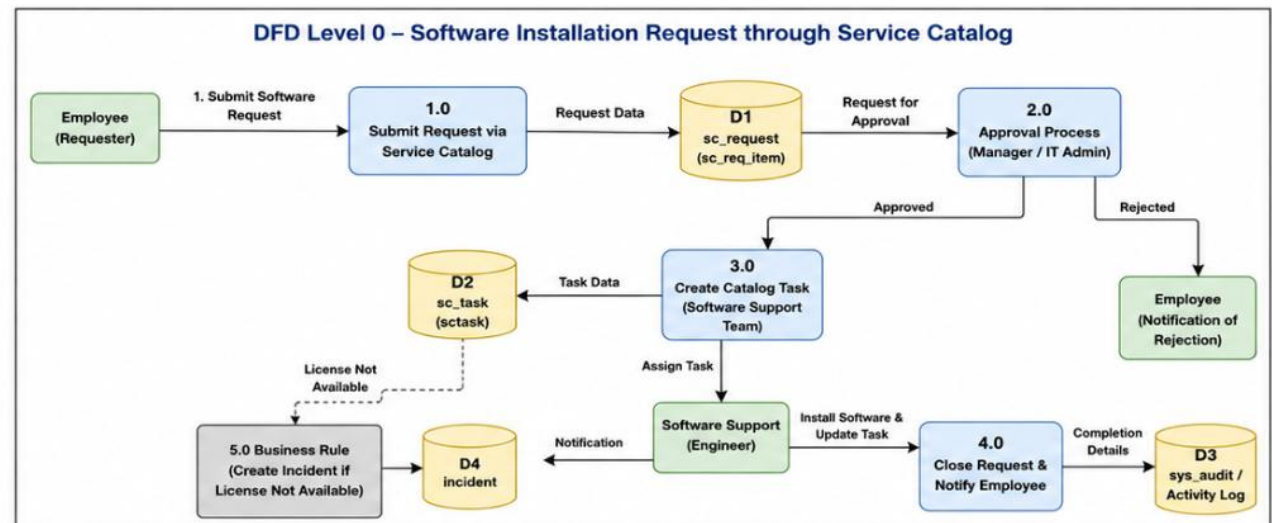

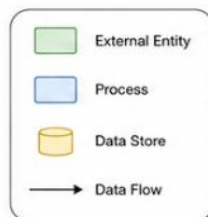

Data Flow Diagrams:

A Data Flow Diagram (DFD) illustrates how data flows through the **Software Installation Request System** in ServiceNow. It shows how an employee submits a request through the **Service Catalog**, how it is processed, approved, converted into fulfillment tasks, and stored in tables such as **sc_request**, **sc_req_item**, and **sc_task**. The DFD provides a clear view of the system workflow and data movement, ensuring an efficient and traceable request process.

Example: [\(Simplified\)](#)

1. Data Flow Diagram (DFD Level 0)

A Data Flow Diagram (DFD) shows how data flows within the Software Installation Request System. It illustrates how an employee submits a software request through the Service Catalog, how the request is processed, approved, fulfilled, and how information is stored in ServiceNow records.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Employee	Software Request	USN-1	As an employee, I can submit a software installation request through the Service Catalog.	Request is successfully created with a Request Number.	High	Sprint-1
Employee	Software Details	USN-2	As an employee, I can enter Software Name, Version, Business Justification and Urgency.	All mandatory fields are validated before submission.	High	Sprint-1
Manager	Approval	USN-3	As a manager, I can approve or reject software requests.	Request status changes after approval or rejection.	High	Sprint-1
Software Support Team	Task Management	USN-4	As a software support engineer, I can receive catalog tasks automatically after approval.	Catalog Task is generated and assigned automatically.	High	Sprint-1
Software Support Team	Installation	USN-5	As a software support engineer, I can update installation progress.	Task state changes to Work in Progress and Closed Complete.	Medium	Sprint-2
Employee	Status Tracking	USN-6	As an employee, I can track my software request status.	Employee can view REQ, RITM and Task status.	Medium	Sprint-2
