

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	25 June 2026
Team ID	
Project Name	An employee requests installation of licensed software through the Service Catalog
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Software Request Submission	Submit software request through Service Catalog Enter Software Name, Version, Justification, and Urgency
FR-2	Request Approval	Route request to Manager/Software Admin for approval Approve or Reject the request
FR-3	Task Management	Automatically create Catalog Task Assign task to Software Support Team
FR-4	Software Installation	Install requested software after approval Update task status to Completed
FR-5	Notifications	Send notifications for request submission, approval, and completion
FR-6	Request Tracking	Track Request (REQ), Requested Item (RITM), and Catalog Task (SCTASK) status

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple and user-friendly Service Catalog interface for employees.
NFR-2	Security	Role-based access ensures only authorized users can approve and fulfill requests.
NFR-3	Reliability	Requests and tasks are processed accurately without data loss.
NFR-4	Performance	Software requests are processed quickly with automated workflows.
NFR-5	Availability	The ServiceNow application is available for users at all times.
NFR-6	Scalability	The system can support additional software catalog items and increased request volume.
